 - 1.3. To the extent practicable the polling Station may be located in permanent or semi permanent buildings.

In case no suitable building is available, The Polling Station can be located in temporary structure but as far as possible this should be avoided as it involves considerable expenditure to the Government.
 - 1.4. Where the Polling area for a Polling Station comprises numbers of villages, the polling station may ordinarily be set up in the village which has the largest number of voters.

As per provision of subsection 4 of Section 105 of the Arunachal Pradesh Panchayat Raj Act 1997, the Returning Officer shall appoint Presiding Officers and Polling Officer for holding the election or by-elections of members to the Gram Panchayat and Zilla Parishad.

APPOINTMENT OF POLLING PERSONNEL

1. The following basic criteria for appointment of polling personnel may be adhered to:
 - i) Presiding Officer should be the senior-most official in comparison to Polling Officers.
 - ii) As far as practicable a person should not be assigned polling duties in a polling station at the place of his posting or at his home place.
 - iii) A Polling Station exclusively set up for women electors must have female Presiding Officer or a female Polling Officer.

2. During simultaneous election to Gram Panchayat and Zilla Parishad a polling team should normally consist of one Presiding Officer and three Polling Officers and one Polling Attendant. However, the Returning Officer may decide the numbers in a polling team depending on the numbers of voters to cover by a polling station.

During single election the team should consist of minimum two Polling Officers and one Polling Attendant in addition to Presiding Officer.
- 2.1. The duties of polling officers are detailed in the handbook of presiding officer.

CHAPTER -X

BALLOT PAPER

- 1.1. During simultaneous election to Gram Panchayat and Zilla Parishad constituencies the ballot paper for Gram Panchayat constituencies will be of WHITE colour and the ballot paper for the Zilla Parishad will be of YELLOW colour.

As the election of members from numbers of Gram Panchayat constituencies will be held in single polling station by using single ballot box, it may create considerable difficulties in sorting out the ballot papers Gram Panchayat constituency wise smoothly and expeditiously during counting and hence may cause inordinate delay in the counting process.

The Commission therefore explored the feasibility of introducing ballot papers in different colours for Gram Panchayat constituencies also.

But in consideration of the fact that large numbers of Gram Panchayat Constituencies ranging from 5 to 8 Gram Panchayat Constituencies may normally be allotted to a Polling Station for poll it is practically impossible to find out such innumerable suitable colours viz., 5 to 8 different colours for printing of ballot papers of different Gram Panchayat Constituencies.

In order to obviate such logistic problem the Commission has decided that the name of each Gram Panchayat constituency will also be printed on the backside of each ballot paper of the particular Gram Panchayat constituency only.

- i) As for instance suppose, the name of Gram Panchayat Constituency, is 'Angrin Valley 'A'. On the back side of ballot paper, but not on the backside of counterfoil of ballot paper will also be printed Angrin Valley 'A'.
- ii) Suppose the name of Gram Panchayat Constituency is Bordumsa village Gram Panchayat Constituency. On the backside of the ballot paper will also be printed Bordumsa village.
- 1.2. No such printing will be made on the backside of ballot papers of Zilla Parishad Constituencies.
- 1.3. Every ballot paper shall in Form -15 for Gram Panchayat and in Form 15 B for Zilla parishad.
- 1.4. Every ballot paper shall have the counterfoil attached to it for recording the particulars of an elector.
- 1.5. The front face of the ballot paper will contain only the name and particulars of the constituency and the election, the names of the contesting candidates and the symbols of the candidates.
- 1.6. The names of the candidates shall be arranged on the ballot paper in the same order in which they appear in the list of contesting candidates.

PRINTING OF BALLOT PAPERS

2. The period between the last date for withdrawal of candidature and the date of poll will be short and the ballot papers will have to be printed and distributed to the Presiding Officers within that period obviously a well planned effort will be required to accomplish this task within the specified time frame. It is therefore, imperative that the printing of ballot papers should commence on the day list of contesting candidates is finalized.

 - vi) If the ballot paper is different from the ballot papers authorized for use at the particular Polling Station and bears a different serial number.
 - vii) If it does not bear the mark and signature it should have contained under the provision of sub rule (1) of Rule-35.
- 10.5. Before rejecting any ballot paper the Returning Officer shall allow the Candidate or his Election Agent or such Counting Agent present a reasonable opportunity to inspect the ballot paper but shall not allow him to handle it or any other ballot paper.

CHECKING SEALS IN BALLOT BOX

- 11.1. Before opening of ballot box the Returning Officer will satisfy himself that the seals on the ballot box are intact and have not been tampered with.
- 11.2. As soon as a ballot box has been placed at the counting table, the Counting Agents for the table be allowed to inspect the seals on the ballot box to satisfy themselves that the seals are intact and have not been tempered with.
- 11.3. After the seals and the identity of the ballot boxes from a polling station have been verified and found to be in order, their contents should be taken out on the respective counting tables.
- 11.4. The Counting Agents be allowed to satisfy themselves that all ballot papers have been taken out from the boxes and that they are empty.
- 11.5. The Counting Assistants should be careful to ensure that no ballot paper goes astray while being handled by them.
- 11.6. At a simultaneous election to Gram Panchayat and Zilla Parishad one (single) ballot box for both Gram Panchayat and Zilla Parishad will be used. The ballot box of Gram Panchayat and Zilla Parishad election will be placed at the Counting Table meant for the Gram Panchayat and the Zilla Parishad election.

The ballot papers from the ballot boxes of Gram Panchayat and Zilla Parishad election should be taken out from the ballot box and sorted out separately in the counting table meant for Gram Panchayat and Zilla Parishad. Thereafter, the Gram Panchayat ballot papers should be retained in the Gram Panchayat counting table and the Zilla Parishad ballot papers be passed in a tray to the table meant for the counting of votes of Zilla Parishad ballot papers. The relevant ballot paper account should also be passed to the concerned Zilla Parishad counting table.

PROCEDURE FOR COUNTING

12. Counting should commence with the distribution of ballot boxes to the counting Table in serial order of the Polling Station. Also the relative ballot paper account in Form-20 should also be supplied to the counting table.
- 13.1. The counting of votes will be done in two stages. In the first stage called initial counting, all the ballot papers contained in a ballot box used at a polling station will be sorted out constituencywise and thereafter the initial counting of ballot papers will be taken up constituencywise to ascertain the numbers of ballot papers used in a particular constituency at the polling station. During the initial counting only the horizontal fold of the ballot paper will be unfolded and the vertical fold will be kept intact.
- 13.2. The numbers of ballot papers so found in the ballot box used at a polling station constituencywise, as ascertained at the initial counting will be entered in Part-II (Result of initial counting) in the Ballot Paper Account Form-20. Discrepancy, if any, found between the total number as shown in Part-I and II of the Ballot Paper Account will be entered in item 2 of Part-II of the Ballot Paper Account and then will be signed by the Counting Supervisor and then will be kept in a tray in the counting table.
- 13.3. At the time of initial counting, the ballot papers will be made up into bundles of 25 or less as the case may be and each bundle will be tied by means of rubber band or piece of string tied at both ends.

- 14.1. Thereafter, the detailed counting will be taken up. During detailed counting, the Supervisor and the Counting Assistant should sort out the ballot papers candidatewise by unfolding the ballot papers and put such validly marked ballot paper for a candidate in the compartment of the tray assigned to the candidate.
- Also, all doubtful ballot papers be put in the compartment/place marked 'D'.
- 14.2. The following categories of ballot papers be treated as doubtful ballot papers :
- i) When there is no mark of all or the mark is made by an instrument other than that provided for the purpose or;
 - ii) When the mark is in blank area, that is to say at the back or entirely in the shaded area or;
 - iii) When there are marks against two or more candidates or;
 - iv) When it bears any mark or writing by which the voter can be identified or;
 - v) When it is so damaged or mutilated that its identity as a genuine ballot paper cannot be established;
 - vi) When it is different from the ballot paper authorized for use at the particular Polling Station or;
 - vii) When it is found in a ballot box other than the ballot box in which it should have been inserted or;
 - viii) When it does not bear the mark or the signature under the provision of sub rule (1) of Rule-35 or;
 - ix) When there is a dispute between the Counting Agents of the candidates as to whether the ballot paper is valid or as to the candidate to whom the vote is given.
- 14.3. If more boxes than one have been used at the polling station the second and subsequent boxes be dealt in the same way after the ballot papers of first box have been sorted.
15. After all the ballot papers for a Constituency in a Polling Station have been so sorted the ballot papers for each candidate of that particular constituency be counted like currency notes in each of the stacks making them up in bundles and each bundle should not contain more than twenty five ballot papers and balance in one lot and tie them up in separate bundles. The Counting Supervisor should then record in the columns regarding the valid votes cast in favour of each candidate according to his count in Form 21 A (Counting Sheet). The numbers of 'Doubtful' ballot papers, if any be recorded in column provided for rejected ballot papers in Form-21 A.
- During making the bundles of counted ballot papers, the front side of the ballot papers containing voting marks of the electors and the symbols of the candidates should be kept outwards so that a glance at each such bundle will indicate clearly as to which candidates the ballot papers belong to and no mistake is committed by placing that bundle in the tray of a wrong candidate.
16. Thereafter a check slip indicating the name of the candidate and the numbers of ballot papers in that bundle appended at Annexure-XI will be placed on the top of the bundle of ballot papers of each candidate. The check slip will be signed by the counting supervisor.
- Similarly, all the doubtful ballot papers will be put together in a bundle and tied with a rubber band or string. A check slip duly signed by the Counting Supervisor indicating the total numbers of ballot papers in doubtful bundle appended at Annexure -XII be placed on top of the bundle.
- Then the bundle of doubtful ballot papers will be placed on Top of the bundles of valid ballot papers of all the candidates and tied together into one bundle along with the relevant Form 20 will then be placed in the compartment of tray near the table of the Returning Officer.
17. As soon as the counting of ballot papers of a Polling Station in a counting table is completed the Returning Officer may allot another polling station to that counting table for counting of votes.
18. The Returning Officer should entrust a counting assistant near him to receive the bundles of ballot papers when the Counting Supervisor bring such bundles and to keep them in the appropriate compartment. The relevant counting sheet in Form 21 A and the Form 20 will also be kept in the same compartment along with the bundles of ballot papers.
19. The Returning Officer should take the bundles one by one, as far as practicable in the serial order of Polling Stations. He shall examine the Part-II of Form -20 to see that the number noted against item 5 of Part-I tallies with the item at 1 of part-II of the Form thereafter scrutinize the ballot papers in 'doubtful' bundle.

There should be atleast three Assistants at Returning Officer table to assist him, one for affixing stamp for rejection of ballot papers in counting sheets in Form -22 and result sheet in Form-23.

20. The Returning Officer shall reject a ballot paper on the following grounds:-
- i) When there is no mark at all or the mark is made otherwise than with the instrument provided for the purpose or;
 - ii)) When the mark is in blank area that is to say at the back or entirely in the shaded area or;
 - iii) When there are marks against two or more candidates or;
 - iv) When it bears any mark or writing by which the voter can be identified or;
 - v) When it is so damaged and mutilated that its identity as a genuine ballot paper cannot be established or;
 - vi) When it is different from the ballot paper authorized for use at the particular Polling Station or ;
 - vii) When it is found in a ballot box other than the ballot box in which it should have been inserted or;
 - viii) When it does not bear the mark and the signature under the provision of sub rule (1) of Rule-35 or,
 - ix) When the ballot paper is not genuine or it is spurious.
21. If the Returning Officer is satisfied that any such defect as mentioned from Sl. i) to ix) under Para 20 has been caused due to mistake or failure on the part of the Presiding Officer or the Polling Officer, the ballot paper shall not be rejected merely on the ground of such defects.
22. The ballot paper also shall not be rejected merely on the ground that the mark indicating the vote is indistinct or made more than once if the intention that the vote shall be for a particular candidate clearly appears from the way the paper is marked.
23. Before rejecting any ballot paper the Returning officer shall give reasonable opportunity to the Candidate or his Agent present to inspect the ballot paper but shall not allow him to handle it or any other ballot paper.
24. The Returning Officer shall endorse on every paper which he rejects the word '*rejected*' and the ground for rejection either in his own hand or by means of a rubber stamp and shall initial such endorsement.

A rubber stamp in the following form indicating the various reasons for rejecting a ballot paper may be used. In that case it will be required to affix the stamp and make a tick mark (ÅÜ3Ü) against the particular reason for which the ballot paper was rejected and then the initial may be put.
